OUR MISSION

Corporate Fashion
that speaks
your language.

MAIC KLAM
FOUNDER

ABOUT US

We are a team of creative minds from Lichtenstein Germany at the foot of the Swabian Jura. With over 33 years of experience in finishing premium workwear and the creation of distinctive corporate fashion products, we know exactly what our customers expect from us. In addition to the highest quality, we therefore place particular value on the best service and the satisfaction of our customers.

OUR VALUES

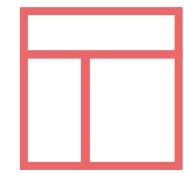

PASSION

The most important aspect of high-quality embroidery? Passion. We love embroidery and this is reflected in all of our embroideries, because what you love to do, you do really excel at.

RESPONSABILITY

A good corporate identity is very important in today's corporate communication. We perfectly stage your logo or mission statement and present it on selected textiles, e.g. in organic quality or with a Fairtrade seal.

AESTHETIC

It's the external values that count: An embroidery must be attractive to have a positive effect on the viewer. We achieve this by optimally scaling your motif, placing it in the best possible position and doing high-quality embroidery.

SERVICES

Together we design your distinctive corporate fashion project. KLAM has the know-how and the discerning eye so that the finest details not only come into their own when printed, but especially when embroidered.

Thanks to our in-house embroidery agency, which is located in the center of one of Germany's best-known textile regions, we are able to react quickly and easily to your needs and thus create collections tailored to your specific needs.

ADVISORY

Providing competent advice is our top priority. Together we analyze your wishes, coordinate with you and advise you comprehensively on all questions that arise. Whether design, optimal cuts or functional materials, we have the right answers and results that meet the highest demands.

CONCEPT

Textiles, accessories, advertising materials: do you have special wishes or special requirements for your brand presence? We will be happy to create a bespoke concept with you. From the concept to the selection of articles, to sampling, finishing and production – storage and commissioning – we drive the entire process.

DESIGN

We create the design for your individual collection through the optimal selection of colors, cuts, materials and finishing techniques. Let's us be creative together and create a unique brand identity.

CREATIVE THINKING

EVERYTHING IS POSSIBLE

CAPACITY

Tailor-made to your needs, we offer you bespoke solutions and will be happy to advise you on materials, colors and cuts as well as the most suitable finishing technique. We manufacture in Europe or Asia according to your wishes. Together, we can design a collection that truly represents your enthusiasm and achieves an impressive result.

We are willing to finish third-party fabrics as well as our own textiles.

DIRECT EMBROIDERY

Your desired motif is embroidered directly onto the fabric.

PATCH

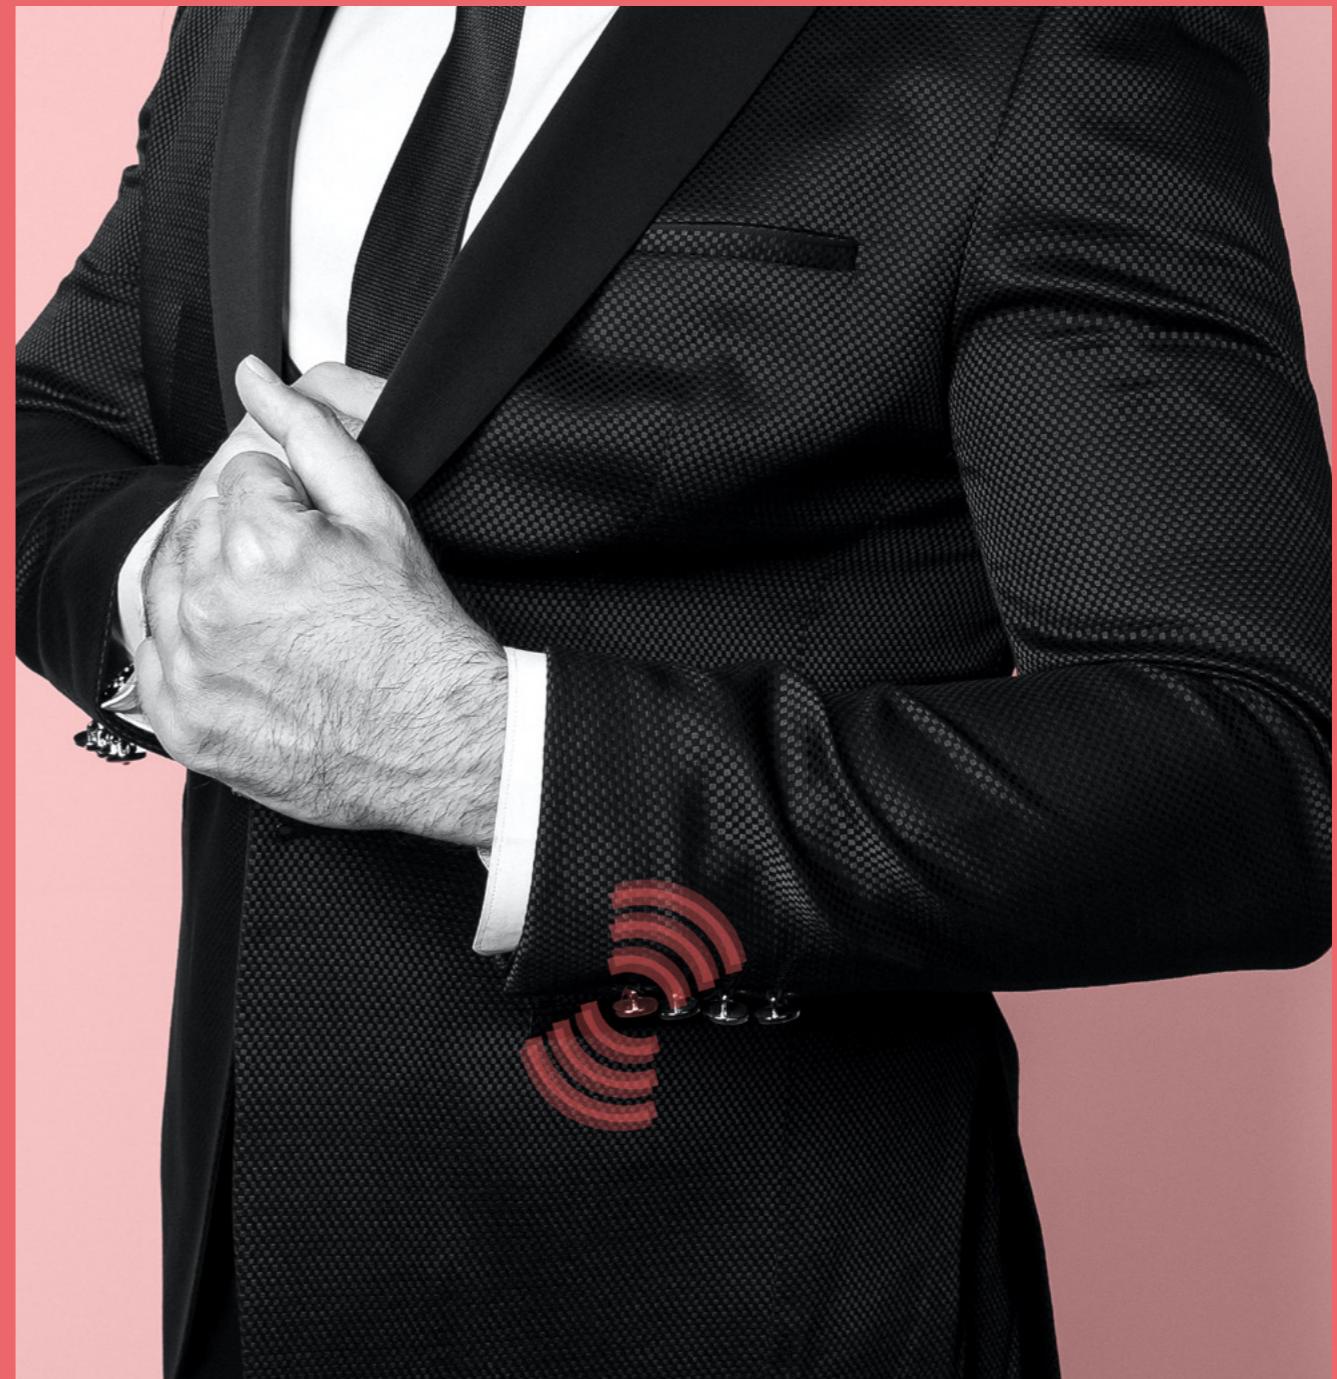

The embroidery is done on a separate fabric, which is cut to fit the motif. The resulting patch can then be sewn onto any part of the textile.

3D

3D EMBROIDERY

A special base allows us to add volume to your embroidery. Many of our customers prefer the resulting 3D embroidery for caps and beanies.
